The PhD lunch will be held in room 0G-28 from 12:00 till 13:30 and is titled “using PhD competences in different career paths”. As it is sometimes hard to explain to others what you do during a PhD, it is important to not just think about your skills and knowledge related to a specific topic. Discussing competences that specifically apply to a PhD can help you to see what types of career paths you would want to follow in a more abstract way. The council invited Eleonore Vos, who is specialized in coaching and career planning for academic personnel at the VU and two speakers who have already defended their PhD and will share their own experiences. In order to register please click here.
